officially supported by:
Austrian Society of Surgical Research
Currently in the process of approval by other societies!

Thursday, 11th January 2024

12:00  Welcome: Bruno Podesser and Hans Wojta
12:15-14:00  Resident Lunch: Meet the Editors
   In this session we want to give our young colleagues the chance to discuss frankly with Editors and Associate Editors, how to interact with journals, how to prepare re-buttle letters and how to become a reviewer.

14:00-14:30  Coffee break

14:30-16:00  Symposium I : Young Surgeons Forum
   “Training the current and next generations”
   organized by the Austrian Young Surgeons Forum
This session wants to address the needs of PhDs and residents in surgery and cardiology - details to be announced!

16:00-16:30 Coffee break

16:30-18:00 Symposium II: “(R)evolution in vascular grafts and tissue engineering”

In this session we plan to address the high expectations that were given during the last 20 years. However, until today, only a few developments have made it into clinical practice. Is there any light at the end of the tunnel?

18:00-18:45 Keynote Lecture I: tbd

19:00 Common dinner at the Restaurant in the Congress Center Weissensee

Friday, 12th January 2024

08:00-09:30 Symposium III: “(R)evolution in myocardial and vascular protection”

In this session we plan to address why we still use preservation solutions in cardiac surgery and transplantation that have been developed in the 60ies and 70ies. Why is there still no clinical concept for reperfusion injury? How will new developments change clinical practice?

9:30-10:00 Coffee break
10:00-11:30  Symposium IV: “(R)evolution: Comorbidities: perioperative challenges”  
*In this session we address the increasing challenges of multi-morbid patients undergoing cardiac procedures and novel therapeutical regimens.*

11:30-13:00  Symposium V: “Moderated poster sessions I-III”  
Chair: NN and NN

15:30-17:00  Symposium VI: “(R)evolution- The Big Five present their latest advancements in cardiovascular technology”  
*In this session major cardiovascular suppliers will present their latest advancements in cardiovascular technology.*

20:00  Common dinner at the “Bergbahnstüberl”

**Saturday, 13th January 2024**

9:00-10:30  Symposium VII: “(R)evolution: Cardio-Oncology”  
*In this session we plan to the newest developments in this emerging field of cardiology that impacts many of our patients.*

10:30-11:00  Coffee break

11:00-12:30  Symposium VIII: “(R)evolution: Precision medicine”  
*In this last session we plan to get more information about this new concept in medicine. What is to be expected from gender medicine and how will it impact our strategies?*

12:45 „Carl Apstein Award“  
Closing remarks  Bruno Podesser and Hans Wojta
