

Acceptance of samples

We endeavor to carry out the analyses on the day the samples are accepted so that the results are available on the day they are sent in. In order to ensure rapid processing of the samples, it is necessary to make an **appointment**.

Appointments must be made **at least one week before** the desired date.

In order to better organize the daily routine operation, it is necessary that the sample material is **in the laboratory by 10.00 a.m. at the latest**. Please hand them in at office 1.Q0.18 (opposite Cafe Udo) or directly at laboratory 01.Q0.38 (next to the operating room).

Please **complete the request form directly and email** it to the institute:

dbf-labor@meduniwien.ac.at

You will receive a **call back** to fix an appointment in your desired calendar week.

If you are **unable to keep the agreed appointment**, you must notify us **at least one working day in advance**. Otherwise, we will have to charge a processing fee of € 50.

We are at your disposal for **any information** or questions regarding pre-analysis, in particular dilution of the sample material:

Michael Prückler 01/ 40400/ 52160
Patrizia Beinhofer 01/ 40400/ 52051
